EduSMS

Version 2.0

In a bid to make use of the popular SMS technology to assist in effective teaching, we collaborated with ACS(P) and developed the EduSMS system. It has been used by Nanyang Primary School, Nan Hua Primary School, St. Hilda's Primary School and 7 Secondary Schools from Cluster South. Students like it because they can have fun while learning. Teachers like it because it is effective, simple to use and it helps to save time.
